MARYVILLE FEED AND MILLING COMPANY GIVES BOOKS.

AT THE PUBLIC LIBRARY

Are Placed at the Disposal of Any Person in County Wishing to Use Them—More to be Added.

It is the custom of the Maryville Feed and Milling company to give 10 per cent of its earnings to the Lord. Hitherto, the amount of money thus resulting has been turned over to the church, but this time the company took a new departure and determined to use the money for the beginning of a Sunday School library

From the amount contributed this year, a number of Sunday School books were purchased and placed on a special shelf in the Maryville Public library where they will be at the disposal of any person in the county who wishes to read them

For the other books in the library a yearly fee of $2 a year must be paid by readers outside of Maryville, but these books will be loaned without charge They will be subject, of course to the rules of the library as regards time loaned, fine for not returning, etc

This is but a beginning of the Sunday School movement From time to time new books will be added to the collection already purchased, and in this way the best interests of the Sunday Schools of Nodaway county will be furthered by the access to the most illuminating works on Sunday School problems

The list of books already purchased and now available to Nodaway county readers follows:

Cradle Roll Manual—K. Williams.
Stories and Story Telling—E. P. St. John.
Picture Work—W. H. Hervey.
How to Run a Little Sunday School—E. M. Ferguson.
The Sunday School and the Teens—J. L. Alexander.
The Pupil and the Teacher—L. A. Weigle.
The Church School—W. S. Athearn.
How to Conduct a Sunday School—M. Lawrence.
The Junior Worker and His Work—E. A. Robinson.
The Adult Worker and His Work—W. C. Barclay.
Sunday School Officers' Manual—F. L. Brown.
Elementary Worker and His Work—A. Jacobs and E. C. Lincoln.
The Girl in Her Teens—M. Slattery.
Stories to Tell Children—S. C. Bryant.
Lesson for Teachers and Beginners—F. W. Danielson.
The Boy and the Sunday School—J. L. Alexander.

TO PUT PAPER PRICE DOWN

News Print Manufacturers Now Propose to Fix Price at $2.50 A Hundred.

Special to The Democrat-Forum.

Washington, Mar. 6.—The federal trade commission accepted yesterday a proposal by news print paper manufacturers that it fix a price for their product and named $2.50 a hundred pounds as a reasonable charge. Higher prices were set for paper in less than carload lots and for sheet paper.

Acceptance of the arbitration plans was announced by the commission in a preliminary report to congress in its news print investigation saying there had been no real shortage of paper, but that important manufacturers of the United States and Canada had banded together to secure unreasonable profits.

"The increases in the selling prices of news print paper for the year 1917 in most cases were greater than could be justified by the increases in cost.

"There is not now and has not been a serious shortage of news print. The commission finds there is enough news print paper to meet all the strictly necessary demands of publishers during 1917. There is, however, a close balance between supply and demand, and the commission recommends the strictest economy in the use of news print paper.

Appointed Administrator.

William F. Logan of Parnell was appointed administrator of the estate of Elizabeth J. Frazey, who died March 1, at her home in Parnell, by Judge W. H. Conn of the probate court, today.

WILSON NAMES CABINET

Only Three of Ten Appointed Four Years Ago Are Out of the President's Council.

Special to The Democrat-Forum.

Washington, Mr. 6.—President Wilson renamed his present Cabinet yesterday as follows:

Secretary of State—Robert Lansing.
Secretary of the Treasury—William Gibbs McAdoo of New York.
Secretary of War—Newton D. Baker of Ohio.
Attorney General—Thomas W. Gregory of Texas.
Postmaster General—Albert Sidney Burleson of Texas.
Secretary of the Navy—Josephus Daniels of North Carolina.
Secretary of the Interior—Franklin Knight Lane of California.
Secretary of Agriculture—David Franklin Houston of Missouri.
Secretary of Commerce—William Cox Redfield of New York.
Secretary of Labor—William B. Wilson of Pennsylvania.

Only three of the ten Cabinet officers named four years ago have changed. The first to retire was James McReynolds, Attorney General, who quit when appointed to the Supreme Bench. William Jennings Bryan retired from the Secretaryship of State as a protest against President Wilson's peace note to Germany after the sinking of the Lusitania. Lindley M. Garrison retired as Secretary of War because he did not indorse the President's views on the preparedness situation, holding them inadequate.

FORMER RESIDENT DIES

William S. Garrett, 91 Years Old, Lived Here Before Moving to Kansas City.

William S. Garrett, 91 years old, a former resident of Maryville, died Sunday at his home at Rosendale, near Kansas City. Funeral services were held at Kansas City yesterday.

Mr. Garrett was born in Kentucky and when a small boy, his family moved to Missouri. He served during the Civil war in the Tenth Missouri Cavalry, U. S. A. Upon removing to St. Joseph as a carpenter he helped to build many of the early day houses there. Later he moved to Maryville, where he also worked at his trade. He finally located in Kansas City.

Mr. Garrett is survived by a son, Edward J. Garrett of St. Joseph, a son, Clifford Garrett of Wyoming, and a daughter, Mrs. Katherine Steckle, of Rosalie, Kan.

"BUD" BRIGHT LEAVES TOWN

Moves to Farm, One Mile North of Conception Junction — Has Lived Here Fifteen Years.

A. M. ("Bud") Bright, who recently leased his barn to Doctor Cline and Dr. Felix, veterinarians, will move with his family to Conception Junction today. Mr. Bright bought a 122-acre farm known as the Alsbury farm one-half mile north of Conception Junction and will try farm life for awhile.

Mr. Bright has lived in Maryville for the last fifteen years and is well known here. He moved all of his horses and his three valuable stallions to the farm. He asks anyone, who owes him any money to pay at the First National bank, or to send it to Conception Junction, Route 2.

REAM FUNERAL TOMORROW

Funeral Services at the Home of Mr. and Mrs. W. C. Pierce at 10 O'clock, A. M.

Funeral services for Dr. Robert Ream, who died at Van Wert, Ohio, Sunday night, will be held Wednesday morning at 10 o'clock at the home of Mr. and Mrs. W. C. Pierce, 1029 North Main street. The body arrived this morning, accompanied by a brother, Ed Ream, at whose home he died, and the Rev. Mr. Christy, of Van Wert, Ohio. Another brother, Paul Ream of Kansas City, is also here for the funeral services.

Burial will take place in the Miriam cemetery.

Mr. Cameron Here.

J. E. Cameron, of Iowa City, Ia., was in Maryville Saturday looking after business and visiting friends. Mr. Cameron was formerly at the head of the Agricultural department at the Normal.

Mrs. Drain Leaves.

Mrs. V. L. Drain of Shelbyville, who has been visiting at the home of her mother, Mrs. Martha Turner, for the last week, returned to her home this morning. Judge Drain, who was here for a session of the circuit court left as soon as his work was through.

AUSTRIA REPLIES

WILL SUPPORT GERMANY IN HER SUBMARINE CAMPAIGN.

WILL MAKE CONCESSIONS

Determined to Prevent Break With the United States if Possible — Note Received Here Today.

Special to The Democrat-Forum.

Amsterdam, Mar. 6.—Austria will support Germany in her new submarine war plans, but will make certain concessions designed to prevent a breech in diplomatic relations with us. This interpretation was placed here today on summaries of the Austrian reply to Wilson's note received from Vienna.

The Austrian reply has been handed to the American ambassador at Vienna. It warns Americans and other neutrals to keep off of belligerent ships entering the war zone.

Reply Reaches Washington.

Washington, Mar. 6.—Austria's reply reached the state department today, but no comment was made. It was learned that the note contained certain concessions designed to prevent a break between Austria and this country.

"The Austrian note will not require an immediate reply," said the first assistant secretary of state today.

The Democratic senators in caucus today elected Senator Thomas S. Martin of Virginia to be the majority leader in the senate, succeeding Kern whose term expired. The selection was made only after a strenuous fight between the supporters of Martin and Walsh.

MEETING WAS A SUCCESS

Twenty-Two Neighbors of Mrs. G. H. Colbert Hear Lecture on Improving the Home Grounds.

Interest and enthusiasm ran high at the beautification meeting held last night at the home of Mrs. G. H. Colbert, when twenty-two of the neighbors came in to spend the evening and hear a lecture on how to beautify their grounds.

Prof. C. C. Leeson of the Normal was the speaker of the evening. He discussed the correct and improper ways of planting shrubs and of placing them on the lawns. He showed views of various homes made unsightly by the injudicious use of shrubbery, and then in contrast showed the value of the well-kept lawn as an asset to the appearance of property.

After the lecture, those present held an informal discussion of the methods on gardening. More enthusiasm was manifested in the discussions and many persons expressed their intentions of setting out more shrubs or of doing something else to improve their home grounds. The meeting tonight will be at the home of Mrs. C. T. Bell on West Third street.

MEASLES KILLS BABY.

Son of Mr. and Mrs. Peter Brocheid, Succumbs to Illness.

The 15-months-old baby son of Mr. and Mrs. Peter Broscheid of Clyde died at 3:30 o'clock yesterday afternoon at the home of his parents following a two week's illness of measles. Funeral services were held at 2 o'clock this afternoon at St. Benedict's church, the Rev. Father Frowin officiating. Burial was at the St. Columbia cemetery at Conception.

Lannings Visit Here.

Mrs. J. C. Lanning and son, Merrill, of Hopkins, are visiting at the home of Mr. and Mrs. Verlin Conley. They will go to Barnard tomorrow for a short visit with friends before leaving for their new home in Millarton, N. D.

Mrs. Margaret Sanger Out.

Special to Democrat-Forum.

New York, Mar. 6.—Throngs of cheering men and women greeted Mrs. Margaret Sanger, when she walked out of jail after serving her sentence of thirty days for disseminating birth control information.

W. W. Jones and George McKnight of Burlington Junction were among the out-of-town people in Maryville yesterday.

WORK PROGRESSES

RAPID STRIDES MADE YESTERDAY IN STATE LEGISLATURE.

HOUSE IS PASSING BILLS

Conference Committees in Senate and House Appointed to Consider Hawes Road Amendment.

Special to The Democrat-Forum.

Jefferson City, Mar. 6.—Swinging into the home stretch of the present session, the state legislators are now conducting their business in a fairly rapid manner.

At yesterday's session of the senate rapid strides were made toward clearing away and advancing important measures.

Senator Goodson's bill imposing a tax of one-half a cent per gallon on all soft drinks and five cents a gallon on syrups was passed.

Senator Kinney's measure imposing a tax of two per cent on the face value of trading stamps was advanced by the senate when that body ordered the bill engrossed. An amendment eliminating the stamps that are part of an original package was adopted. The amendment would exempt packages of tobacco.

Conference committees of the senate and house have been appointed to consider the senate amendments to the Hawes Good Road Bill. It is confidently predicted that the committees will concur in the amendments and that the bill will be sent to the governor this week for his approval.

The income tax bill introduced by Senator Duncan, is now under final consideration in the senate.

The house continues to grind out measures. The following measures were passed by the house yesterday:

By Representative Nelson, creating fifteen hay and straw inspectors, at $1,800 a year each, to the warehouse commission office. The measure provides for five inspectors at St. Louis, six at Kansas City, two at St. Joseph and two at Springfield.

By Chancelor, making the storing of liquor in local option territory a misdemeanor. The bill is said to be aimed at liquor store houses along the Missouri-Kansas border.

By Fullbright, fixing an annual tax of $25 for cold storage plants and requiring a public record be kept of storage of all articles of food, showing when they were received at each plant in which they have been stored.

GUILFORD WINS DEBATE

High School Students Have Discussion of Possibilities of Revenue or Protective Tariffs.

Guilford High School was the winner in a debate which was held at the Guilford High School last Friday night with Ravenwood High School. The question was: "Resolved, that a revenue tariff is better for the American people than a protective tariff."

Those attending from Ravenwood were: Prof. and Mrs. Ross, the Rev. and Mrs. Hetzel, Misses Kidder, Gertrude Conn, Leora Deshazer, Marie Oglesby, Helen Tebow, and Eva Loomis; Leslie Powell, Pearl Lawson, Harold Tebow, Rex Bond, Hulbert Lawson, Fred Bradley, Claude Loch, Arthur Gates, Raymond and Freddie Jackson, Dorse Conn, Chester Peterson and Wellington Slagle.

Those debating from Ravenwood were: Miss Helen Tebow, Pearl Lawson, Arthur Gates and Leslie Powell.

UTTER CASE DISMISSED

Eploye Arrested On Charge of Disturbing the Peace — Filed by A. D. Arnett.

John Utter, who has been in the employ of A. D. Arnett, was arrested last night on a charge of disturbing the peace, the complaint being issued by Arnett. Utter pleaded not guilty and the case was called before a jury in the city police court this morning. After several witnesses had been examined the case was dismissed at plaintiff's costs.

The trouble is said to have started about some money that was owed Utter by Arnett.

The jury in the case was composed of John Behm, J. M. Conley, O. W. Swinford, Frank Nichols, Tom McDonald, and Dug Montgomery.

"GLORIANA" PLEASES BIG CROWD

Church Women Delighted With Success of Plan to Raise Money .

The production of "Gloriana" given at the Fern Theatre for the benefit of the Ladies' Aid society of the Christian church was enjoyed by a large audience yesterday afternoon and evening. The picture was especially pleasing to the children, who were out in great numbers to see it. The women of the society were delighted with the success of their efforts in raising money.

PLOT IS UNEARTHED

GERMAN AND HINDU DOCTORS ARE IMPLICATED IN CONSPIRACY.

THEY HAD SEVERAL PLANS

Raised A $60,000 Fund to Further Germany's Cause in the United States.

Special to The Democrat-Forum

New York, March 6.—An insurrection throughout the United States, an expedition to a foreign country, said to be India, and the conversion of the Chinese government to measures said to further Germany's cause were all parts of a plot unearthed here today, according to the police.

It is said that startling disclosures will result from the arrests of Dr. Ernest Sickner, German subject, and Dr. Chanadra Chakaberty, Hindu, both on charges of conspiracy to conduct a military expedition against a foreign nation friendly to the United States. Chakaberty, the police say, confessed that he received $60,000 from Wolf Vonigal, engineer of Welland Canal, also in the plot to carry on the work in this country

Normal Enrollment, 230.

The enrollment at the Normal this term is not so large as it has been the other terms of this year. This morning the enrollment had reached 230.

APPRECIATION.

I like to see a fellow who is pulling for his town, while the other chaps as critics take a stand, and with their little mallets gaily try to batter down all the good things and the great things he has planned. Yes, he knows that they are knocking and he knows how glad they are if some fool gets up to reel and rock the boat, for they know no greater pleasure than to scuttle and destroy, while it's hard to keep the Ship of State afloat. I should like to stand close by him as he labors at his tasks when his critics crowd around with leering smiles. I should like to face their meanness and to tear away their masks and kick them and their pretenses twenty miles.

You can bet your bottom dollar that the man they try to down is a better man than they can ever boast and the only use the devil, and his angels has for them is to put them in a place where they will roast. When a man will serve his country, and will guide it through the storm then when you see a critic go and get your gun, for the nicest way to handle skunks and things that skunks create is to kill the skunks and likewise kill his fun.

SENATE IS NOW BACK AT WORK

PREPARED FOR BITTER WRANGLE OVER REVISION OF RULES.

WILSON DETERMINES TO "FIND WAY OUT"

Meets With Cabinet This Afternoon to Look Over Statutes Relating to Arming Merchantmen.

(BULLETIN).

Washington, Mar. 6.—Senator Lodge this afternoon reintroduced into the Senate a bill fixing the President's authority to arm merchantmen and to use other instrumentalities and methods to protect American lives and property on high seas.

Special to The Democrat-Forum.

Washington, Mar. 6.—The Senate went back to work today prepared for a long and bitter wrangle over the revision of the rules suggested by the President to abolish filibustering, and to clear the way for prompt action on the "armed neutrality" bill which failed with the expiration of the sixty-fourth congress Sunday.

The Senate has enough debate-producing material to keep it in session for at least a month, and perhaps three months, in the opinion of the leaders. When it has revised the rules it is expected that the President will call both houses in extraordinary session and ask them again for power denied him in dealing with the German submarine warfare situation.

Cabinet in Session Now.

Washington, Mar. 6.—Determined if possible "to find a way out," and to establish armed neutrality as outlined by the president in his final answer to congress and in his inaugural address, the cabinet met with Wilson this afternoon. It had before it the reports of Attorney-General Gregory and Secretary Lansing, dealing with the right of the president to arm all merchantmen.

It is believed in official circles that the power of the President will be upheld. Statements were promised "shortly" after the cabinet went into session, and if it turns out to be as is expected, the official arming of vessels will begin at once.

SOYBEAN BEST FOR FORAGE

Exceeds Any of Legumes in Seed Production—Rich in Protein and Highly Digestible.

The soybean is one of the best forage plants among the legumes and it exceeds any of the legumes in the production of seed, although it is now grown largely for its abundant yield of rich forage. The high value of its seed offers the most promising possibility for the future use of the soybean as a seed crop according to W. C. Etheridge of the Missouri College of Agriculture.

Soybean seed are the richest in crude protein of any seed used for feeding, are extremely high in fat and are highly digestible. Feeding experiments have shown soybean seed meal to be slightly superior to cottonseed meal for dairy cows and only slightly inferior to cottonseed meal for fattening cattle. Soybeans are also an excellent feed for horses, sheep, and pigs. It must be understood, however, that soybean meal is a highly concentrated nitrogenous feed and such must be fed sparingly—in about the same ratio to other feeds as cottonseed meal is fed.

OUR ARMY FORCES

Defense Council Figures We Can Raise 4,778,050.

ARE FIT FOR MILITARY DUTY.

Still Greater Number Might Be Put Under Arms In Emergency by Recruiting Older Men, Lowering of Physical Standards and Placing Women In Men's Jobs.

New York.—An army of 4,778,050 of men between eighteen and forty-five years old fit for military service is available in this country, according to the estimate of an investigating staff of the executive committee of the mayor's committee on national defense. A still greater number might be put under arms in a serious emergency, according to the committee's report, by the recruiting of older men, by the lowering of physical standards and by the employment of women in occupations now open only to men.

The task of estimating the total resources of the nation in men available for military service between the ages of eighteen and forty-five, inclusive, is complex. For into this calculation there enter many uncertain factors. In addition to the morbidity rate and the physical rejection rate there is to be considered the dependency of families and the need of men of mature years in the business and industry of the country.

In 1910 the males from eighteen to forty-five years old in the United States numbered 21,071,076. Although approximately 1,800,000 were aliens and therefore ineligible for military service, the officials of the census bureau consider that the increase in population between 1910 and the summer of 1916 has about compensated for these.

Through a deduction of 2½ per cent for morbidity, the total of 21,071,076 becomes 20,544,300, and through a deduction of about 12½ per cent for physical defects there is a further reduction to 18,007,080.

The census tables showing the number of men in various occupations—farmers, factory workers, miners, physicians, lawyers, railroad employees, clerks, public officials and so on—have been carefully examined, and the effort has been made to reach an approximate estimate of the number that could be spared for military duty in a serious emergency. This leads to the estimate that 17,006,000 out of the 30,091,564 employed, or 58.5 per cent, could be brought into service if needed. And this percentage applied to the 18,007,080 physically fit between eighteen and forty-five years old gives 10,535,940.

Still unconsidered, however, is marital condition or dependency. Though unmarried men have dependents, there are married men who are in such circumstances that they can do military service without imposing hardship upon their families. How nearly the latter come to offsetting the former cannot be stated even approximately. In this calculation all the single, widowed, and divorced men are assumed to be available and all the married men unavailable.

Of the 21,071,076 men from eighteen to forty-five years old 45.35 per cent are single, widowed or divorced (43.35 per cent being single). If this percentage be applied to the 10,535,940—the figure arrived at after deductions for sickness, physical defects and industrial necessities—the number available for service becomes 4,778,050, or 22.7 per cent of the entire number of males from eighteen to forty-five. This is about one out of five.

In the attempts to estimate a nation's human military resources it has been borne in mind that the result depends upon highly elastic factors. Upon the seriousness of the emergency which faces a nation must depend in a great degree the proportion of exemptions from military duty.

The executive committee is composed of Willard Straight, chairman; Cleveland H. Dodge, William D. Dykman, Major Francis G. Landon, John Mitchell, George W. Perkins, ex-Secretary of War Henry L. Stimson, Alfred E. Smith and Alexander M. White.

WANTS CHAIR PAINTED RED.

Socialist Assemblyman Asks It; Also Suggests Ear Trumpets.

Albany, N. Y.—Socialist Assemblyman J. I. Whitehorn of Brooklyn has suggested to the clerk of the assembly that seat No. 149, which he occupies, "be painted red."

"When I drew the seat at the beginning of the session," he explained, "I was told it was occupied by Socialist Assemblyman Shiplacoff of Brooklyn last year. So I said why not paint it red and reserve it for any Socialist who may be elected to the assembly in the future."

Whitehorn, who complains that he cannot get favorable action on a resolution instructing the Public Buildings Commission to improve the acoustics of the assembly chamber, now suggests that each assemblyman be supplied with an ear trumpet at state expense.

Goose's Crop Held $10.27.

St. Louis.—When John E. P. Ernst killed a gift goose he found in its crop a half dollar, twenty-six quarters, twenty-six dimes, thirteen nickels and two pennies. GERMS.

There are thought germs as well as disease germs, which are constantly at work breeding disorders in the public mind and spreading contamination in their wake.

Just as a normal sound man is optimistic without any effort on his part just so is a community spirit fostered and kept healthy by its broad public-spirited citizens, naturally progressive and co-operative.

But there are always forces at work in nature, tearing down and breaking down, sowing mental hallucinations, creatures of diseased unnatural minds, which germs find a breeding place in people of low mental resistance, just as do disease germs in people of low bodily vitality.

These people are "disease carriers" and spread as dangerous germs as far as community welfare is concerned, as typhus or any other pest.

Don't blindly grasp the half truths of the demagogue. Prove your own theorems and draw your own conclusions, for by so doing you show that you are inoculated with bacilli of "good citizenship" and possesses a healthy brain.

Every community disease has a cure. Look for it. Be a community doctor rather than an undertaker. It pays.

How to cure community ills will be discussed at the annual convention of the Federation of Missouri Commercial Clubs in St. Louis on March 27 and 28, at the Planters Hotel. It will pay the progressive citizens of this community to attend that convention.

To Attend State Normal.

Miss Ethel Earlywine, 1017 Syracuse street, went to Maryville, Mo., this morning to attend the State Normal—St. Joseph News-Press.

Mr. and Mrs. Mark Debord of Maitland are in Maryville on business today.

Among the one hundred men present as guests of honor at the Fathers' Day exercises, at the Savannah M. E. Church, February 25, there were six great-grandfathers. The meeting was one of great enthusiasm.

Dearborn's Calf Club is starting off like an assured success. Already forty-five boys and girls have joined, each signing up with his father's name as security for the purchase of a dairy calf.

Cream from five cows has brought John Tays of Dearborn, $264 during the past six months. And that is in addition, says the Democrat, to the separated milk and the butter used at home and $100 received for the calves.

Peter Pfeiffer, Judge Sheiber and Nealy Moss of Conception are among the out-of-town people in Maryville today.

Mrs. E. J. Rhodes of Burlington Junction was a Maryville visitor yesterday.

To Visit in Florida.

Harry Wilson of Burlington Junction will leave this week for Palm Beach, Fla., where he will visit his wife, who has been spending the winter months there.

FERN TO-NIGHT

ANOTHER BLUEBIRD ENTITLED

"Bettina Loved a Soldier"

in five acts, featuring LOUISE LOVELY, FRANCELIA BILLINGTON, and RUPERT JULIAN.

Here is a comedy-drama minus deep-dyed villainy, an interesting love story worked out by the heroine herself. The only discordant note in the strain of joyousness is struck by a fortune hunting nobleman, who plots vengeance to be heaped upon the back of another and ultimately gets a horse-whipping himself.
10 CENTS TO ALL.

TOMORROW

Charlie Chaplin

in two acts entitled

"Behind the Screen"

Thirty minutes of continuous laughter and a (Musty Suffer) comedy in one act. Also a two-act drama, entitled, — "THE LITTLE BROWN MOLE," a (Black Cat) feature. A wonderful entertainment for—

Ten and Fifteen Cents

The manager of the "FERN" wishes to express his ideas in "some poetry."—

These tragic features may be fine,
But give me funny one's for mine
A "Komedy" that is full of Zipp,
Gets me money every trip
And I'd say most every one is like me,
What they want is "Komedy"
There's plenty at home to make them cry,
The hog is dead and the well is dry,
Or crops are poor and feed is up,
Each one has some bitter cup,
They've all got troubles of their own,
And don't want plays that sob and moan.
They want to wear a smile back home,
They want to laugh—that's why they come.

Go to the FERN and get a smile that won't come off—a dose a day is sufficient and guaranteed.

A HOUSE VS. A HOME

Contrast Between Dwelling With and Without Shrubs Is A Painful One.

(A House vs. A Home).

The contrast between a bare walled house set on an ill-kept lawn and one around which are shrubbery, trees, flowers, and an open green is a picture one can easily imagine because it is often seen.

The one gets the burning summer sun with no relief of shade and the bleak winter cold that the open exposure makes the more forbidding; the other gives relief to the sun glare and a canopy against its heat, and if it be but a low shrub planting it makes the cold seem less intense.

The one offers no changing welcome as the seasons pass; the other has one round of glad surprise in flower, foliage, leaf color, winter berries, and snow crowned forms.

The one offers no enticement to an out-door recreation; the other offers restful shade or healthful occupation or exhilerating joy in the variety of garden activities.

The one leaves the house set artificially on a plot of ground; the other blends the home into a natural setting and softens the hard outlines.

The one makes of the backyard a litter of garbage; the other a place of beauty and an economy against the high cost of living.

The one makes poverty in house possession show up in all its ugliness; the other will transform a hovel "be it ever so humble," into a thing of beauty.

The one is "but a house beside the road;" the other, a friend to man.

AN EXTRA SESSION

LEADERS THINK IT WILL BE NECESSARY BY JULY 1.

FILIBUSTER IS THE CAUSE

Failure of Big Appropriation Bills Threatens to Halt Important Activities.

Special to The Democrat-Forum.

Washington, Mar. 6.—The failure of appropriation bills designed to supply $500,000,000 for imperative government expenditures during the next fiscal year because of Senate filibuster which ended the Sixty-fourth congress, will make an extraordinary session of congress before July 1 absolutely necessary. Four great supply measures died awaiting action in the senate. Unless they are enacted before July 1, great government activities will be halted, the army organization disrupted and the civil machinery of the government thrown into chaos.

The big supply bills which failed in the Sixty-fourth were:

The army appropriation bill, carrying $277,000,000 which the administration had declared absolutely essential to preparedness in the present crisis; the sundry civil bill with its $138,000,000 in salaries and the expenses for the various departments; the general deficiency bill, carrying $68,000,000, about half of it designed to meet immediate military necessity and the military academy bill appropriating $1,500,000 for the West Point school.

Unless the President calls an extraordinary session, there is no way to supply these funds. The congress itself cannot get together until next December, when it convenes under constitutional mandate. Without an extra session all of these activities will be halted from July until December.

The only question in the minds of congressional leaders today was the probable date of an extra session, and it was believed that unless the German crisis takes a graver turn the new Congress would be convened just in time to get the supply measures through by July 1.

In the closing hours of the congress yesterday, a grist of legislation was turned out and signed by the President in his room at the Capitol. A mong the measures approved were:

The naval appropriation bill and a joint resolution authorizing a bond issue of $150,000,000 for speeding up naval construction; a joint resolution extending the effective date of the so-called "bone-dry" provision in the postoffice bill to July 1, rather than allow it to become operative at once; a bill appropriating $3,000,000 for work on the government railroad in Alaska, to replace a provision that died in the sundry civil bill; the agricultural appropriation bill and a bill establishing a temporary form of government for the Danish West Indies.

Dr. and Mrs. Jesse Wallace left yesterday for their home in Clinton, Mo., after a visit with relatives.

POLICE DOGS HELP IN WAR ON CRIME

Sagacious Animals Go With Bluecoats on Patrol In Outlying Sections.

New York.—New York's police dogs are having a large part in cleaning up crime in the Flatbush section of Brooklyn and in making it a place where women may walk the streets safely late at night without fear of annoyance. The vigilance and activity of the dogs have done much to rid this cozy settlement of detached houses of tramps, idlers and criminals. The dogs have also done much in Riverdale, where several were dispatched after a series of burglaries.

The police department is devoting considerable time to the serious training of these dogs with a view to finding out to what extent they may be used in certain lines of police work. Kennels for the accommodation of twenty-four dogs have been built at Foster avenue and Ocean parkway, two blocks from the Parkville police station, and a good sized dogs' hospital has been constructed, in which the animals when ill may be isolated and receive veterinary treatment.

There are twelve full grown Belgian and German shepherd dogs in the department, and to these may be added a litter of nine German shepherd puppies, which arrived at the kennels recently. The dogs are in charge of Sergeant Joseph Hickey, who has thirteen patrolmen to assist him in their handling. A dog is assigned to each patrolman. Every night the police go out to patrol with the animals. The dogs wear large leather muzzles, so that they may not bite any one, for they are powerful enough to tear a man limb from limb.

GETS HALF MILLION FOR HIS OIL PRODUCING FARM

Texan at Goose Creek Waited Patiently Until Things at Last Came His Way.

Houston, Tex.—John Gaillard sold his farm at Goose Creek, Tex., recently for $500,000. There were 267.7 acres, and he reserved one-half acre, the ancient burial ground of the Gaillard family. The Gulf Production company was the purchaser. It owned oil leases on most of the farm from which Gaillard had been drawing a one-eighth royalty since the Goose Creek oil field was opened several years ago. Last August gusher oil was discovered on the Gaillard place, and since then the proprietor, known as the "silent magnate of Goose Creek," has drawn a half million in royalties. It was to avoid the payment of these royalties that the oil company bought the farm outright.

John Gaillard is a man who speaks only when necessary. He was born on the place forty-eight years ago. His father took up the land in the early days of Texas. With wealth at his command, John Gaillard does not keep a telephone in the house. His wife likes the simple life as well as the husband.

Since 1907, when the first boring for oil at Goose Creek was begun, John Gaillard has silently watched the development—and held on to his land. Hundreds of thousands of barrels have gushed from the earth at Goose Creek since last August, and from every barrel the Gaillard family drew its royalty.

If John Gaillard knows what to do with his money he is not telling any one. As one of his neighbors remarked, "John doesn't need a gyar-deen."

WOLF ATTACKS LITTLE GIRL.

Half Starved Animal Is Then Slain by Farmers Near Penn Yan.

Rochester, N. Y.—A gray timber wolf weighing about eighty pounds and apparently almost starved, was killed in a small patch of woods near Penn Yan, not far from this city.

Lucy Ballard, the twelve-year-old daughter of a farmer at Benton Center, near Penn Yan, was on her way to church when the wolf leaped out at her at a lonely point in the road. She screamed and struck at it with her handbag and fled down the road. Her cries were heard by Adam Babcock, a farmer living near by, and when he appeared the wolf took to the fields and made its way to the patch of woodland.

The alarm was given and a number of farmers armed with rifles and shotguns, surrounding the wood, succeeded in beating up the wolf and killing it.

New Rugs

WE have received our sping shipment of Rugs and now have on display a very extensive assortment of various weaves and colorings in the very newest patterns. We contracted for our spring rugs early last fall and, with very few exception, are able to supply you with rugs at the same prices as last season.

There are certain fundamental rules that are followed by good furnishers of homes. First, to select a fabric that will give wear proportionate to its cost; second, to select a weave that can be cared for with the least expenditure of time and strength; and third, to select colors that are permanent—or as nearly permanent as good dyes can render them—and that harmonize with other furnishings of the room.

Our stock of rugs was bought to meet just these requirements and our arrangements with the manufacturers to quickly supply us with special rugs for special needs puts our service on the same plane with the large city stores.

We make a specialty of carrying as regular stock odd sized rugs and can fit most any room from our present stock of rugs.

Kansas City Stock Letter.

Kansas City Stock Yards, Mar. 6.—Cattle finished last week firm with a net gain of 10 to 20 cents, and the 12,000 head that arrived today sold strong to 10c higher, top $11.25. Hogs made new flights today, 25c to 40c higher than Friday, most gain on lights, top $14.65, receipts 9,000. Sheep and lambs sold 15c to 25c higher, heavy lambs 40c higher, top $14.60, receipts 6,500.

Beef Cattle.

No strictly prime cattle were included, but the right kind would bring $12, which price was offered by a packer for two loads of prime Nebraskas, whose owner is about ready to ship. Middle class to good steers bring $10.00 to $11.25, light weight steers $9.00 to $10.00. About 75 cars of pulp fed steers arrived and sold quickly at stronger prices, most of them at $10.50 to $10.75, some at $10.90 to $11.25, a few down to $10.20, pulp fed bulls $8.25, pulp fed cows $8.75. Butcher cattle continue firm, choice heavy cows last week up to $10.00, bulk of cows $6.50 to $8.75, heifers $8.00 to $10.75, veal calves off 50 cents today, best around $11.75.

Stockers and Feeders.

Receipts of this class have been short of the demand, and the market is strong and active, some sales today 10c to 15c higher, fleshy feeders $10.00 to $10.50, thin feeders $8.50 to $9.75, stock steers $7.50 to $9.00, stock cows and heifers $6.00 to $8.00. A good many cattle in this division get bids from packers, which has a stimulating effect on prospective feeders, showing that they can turn the cattle at any time.

Hogs.

Early bids 15c higher were promptly refused, and the market soon assumed a plane 25c higher, some of the light hogs going 40c higher before the finish, bulk of sales narrowest of the winter, at $13.80 to $14.00, top $14.05, that price paid late for a drove of 240lb hogs, quite a string bringing $14.00 Shrinking visible supply, and belief in a short invisible supply, with no falling off in the demand, leaves the situation wholly in the hands of sellers. A good many choice hogs are coming from Northern Kansas and from Nebraska, but offerings from most other sections run lighter in weight. Pigs sold at $10.50 to $12.50 today.

Sheep and Lambs.

After a listless trade last week, with prices barely steady, the market took on new life today and sales were 15c to 25c higher on medium and light lambs, and 40c higher on heavy lambs some weighing 86 pounds bringing $14.35. Top of $14.60 was paid for a four car drove of Arkansas Valley lambs weighing 73 pounds. No choice ewes were here, top paid $11.50, prime ones worth $12.00. Feeding lambs sell at $13.50 to $14.00. Receipts were 6,500 today, and have been running light for ten days.

PERILS OF THE AIR

Lost Army Flyers Found South of Mexican Border.

FOUR DAYS WITHOUT FOOD.

Two Sandwiches and Two Oranges All They Had In Ten Days—Propeller of Airplane Broken When They Made Landing—Got Water From Radiator of Craft.

Wellton, Ariz.—Exhausted and half famished from wandering four days without food or water, Lieutenant Colonel Harry G. Bishop and Lieutenant W. A. Robertson, the lost army aviators, were found thirty-two miles south of the Mexican border by civilian searchers. They were brought back here.

Since the two men left the aviation base at San Diego ten days before on their flight two sandwiches and two oranges were all the food they had. The only water was from the radiator of their airplane.

Robertson was found following the tracks of the searchers' auto. He directed the members of the party to Bishop, who had become too exhausted to go on when they reached the Rosario mountains, thirty miles farther south. Bishop was found lying on the ground in a mountain pass, unable to talk. Robertson didn't know exactly where they landed, but thought it about 250 miles south of the Arizona border. The searchers were the first persons they had seen since landing.

The propeller of their airplane was broken, Robertson said, when they made a landing. Enough gasoline for thirty minutes' flight remained in the tank. Lieutenant Robertson said:

"We left San Diego intending to go across the mountains east to Calexico. Insufficient maps made it necessary to rely largely on compass readings. We figured on a course to reach the Imperial valley about fifty miles above Calexico and far above the Mexican border.

"In order to cross the high mountains it was necessary to travel high, averaging more than 7,000 feet. From this altitude it was impossible to detect a very strong north wind which I encountered in the mountains.

"We kept a northwest course, traveling by night and day. Our water gave out after four days. By that time Colonel Bishop was so weak our progress was slow. We agreed it would be wise to separate when he could travel no farther, I to continue on and send back aid if possible."

GIRL SHOWS HER PLUCK.

Handicapped by Coat, She Saves Two From Drowning.

Sheboygan, Wis.—Virginia Fessler, aged fifteen, daughter of Bernard Fessler of Sheboygan, was unable to unfasten her heavy coat and cape in her anxiety when her brother Jacob, aged six, and Cecilia Melger, seven, broke through the ice in the Sheboygan river above the cofferdam at Sheboygan falls, so she broke through the thin ice and swam in her heavy clothes to the middle of the river and rescued her brother as he sank for the third time, came back to shore, then returned and saved Cecilia.

The children were throwing sticks on the ice for a pet dog to bring back. One went to the open channel, and the dog fell into eight feet of water. The children went out to rescue the dog and broke through. Virginia learned to swim last summer. She wore gloves and could not unfasten her cloak as she ran out on the ice, but broke through, and with her fist broke a channel to rescue her brother and his companion.

REMEMBERS LOW PRICES.

Man Would Not Sell His Eggs For 3 Cents a Dozen.

Macon, Mo.—"People who complain of paying 5 cents apiece for eggs think they are in hard luck," remarked J. H. Wright, one of the county's pioneers, "but I can tell you we thought times were a good deal worse in the fifties, when eggs were selling at 3 cents a dozen," he said. "I remember one day of taking a basket of the nicest eggs ever laid to old Bloomington and offering them to the merchant there. When he told me he could get all the eggs he wanted for 3 cents a dozen and wouldn't pay any more I took mine back home.

"Those were what you call real hard times, as far as money was concerned. People raised lots more stuff on the farm, but couldn't get anything for it because there was no way to get it to market."

GIRLS PROVE BEST SPELLERS

Winners Get Silver Medals In State Wide Contest.

Albany.—Schoolgirls are better spellers than boys, the results of the state wide spelling bee conducted by the state education and agricultural departments indicate. Of the winners of these contests in up state counties more than 70 per cent are girls.

The contests were held simultaneously in 10,500 schools and the results checked up in the presence of official referees. The winners were to be rewarded with a trip to the state fair last September, but the prevalence of infantile paralysis deprived them of that pleasure. Instead Dr. John H. Finley and Charles S. Wilson sent each winner a certificate of proficiency and a silver medal bearing the seal of the state of New York.

NEWS FROM ALL NORTHWEST MISSOURI

An entire neighborhood near Grant City spent several hours one day recently, searching for the little two-year-old daughter of Mr. and Mrs. Art Maylon, only to find the child sound asleep in the grass, three-fourths of a mile from the farmhouse.

A drainage district, comprising 23,000 acres, has been organized in Mercer and Harrison counties, and the surveys are virtually complete for the shortening of a 50-mile stretch of the Grand River through these counties. The new channel will be 29 miles shorter than the old, says the Princeton Post, and will have a fall of four feet to the mile.

The champion brood sow is claimed by Missouri City. Wm. Carter has a sow from which a single litter of pigs recently sold for $188, after reserving two for the family pork barrel.

The capital stock of the Andrew County Fair Association is to be increased from $20,000 to $25,000, fully paid, and complete equipment is to be provided for the new fair grounds occupying 20 acres at the northeast edge of Savannah. The first annual exhibition will begin September 3.

Unique commemoration of Lincoln's birthday at the Savannah high school consisted of an address by a local veteran, Dr. W. M. Kerr, who told of the fateful night at Ford's Theatre, when President Lincoln was shot. Dr. Kerr, having just been mustered out of the army, was planning to return home the next morning, and in order to pass the time went to Ford's Theatre, to hear Charlotte Cushman in "Our American Cousin." The stirring scenes of that night are still fresh in his memory and his simple narrative as an eye witness, made an impressive memorial ceremony.

North Missouri may soon have electric roads, according to a rumor published in the Unionville Republican. The Illinois Traction Company The The Illinois Traction Company. Geologists, who have been investigating for several months, say Higginsville and the land adjoining is underlaid with enough rock asphalt to pave a million miles of streets. They say it not only can be used for paving purposes but can also be made into a superior grade of roof paint, and is rich in analine dyes.

Some weeks ago the executive committee of the Liberty Community Club asked for suggestions as to what the club should try to accomplish. From the suggestions then offered, one has grown in favor until the club is now virtually unanimous in asking that it be put into effect, and that is the building of a community hospital. It is likely that some definite step will be taken soon toward this worthy ideal.

Sugar Lake, near Dearborn, was so thickly covered with wild ducks, February 25, that Editor Ives, of the Democrat, states point blank that there were 15,000,000 of them, or 1,000 acres of them, whichever sounds the best. And nobody allowed to shoot.

When Uncle John Calvin Bales went into the voting place at Richmond to cast his ballot, last election day, who should he meet but Andy Wells, and at once the memory came over these two od men that they had met exactly the same way at an election in Richmond just sixty years before. VOLUME 7. MARYVILLE, MISSOURI, TUESDAY, MAR. 6, 1917. NO. 236.

BEGIN S. S. LIBRARY

MARYVILLE FEED AND MILLING COMPANY GIVES BOOKS.

AT THE PUBLIC LIBRARY

Are Placed at the Disposal of Any Person in County Wishing to Use Them—More to be Added.

It is the custom of the Maryville Feed and Milling company to give 10 per cent of its earnings to the Lord. Hitherto, the amount of money thus resulting has been turned over to the church, but this time the company took a new departure and determined to use the money for the beginning of a Sunday School library

From the amount contributed this year, a number of Sunday School books were purchased and placed on a special shelf in the Maryville Public library where they will be at the disposal of any person in the county who wishes to read them

For the other books in the library a yearly fee of $2 a year must be paid by readers outside of Maryville, but these books will be loaned without charge They will be subject, of course to the rules of the library as regards time loaned, fine for not returning, etc

This is but a beginning of the Sunday School movement From time to time new books will be added to the collection already purchased, and in this way the best interests of the Sunday Schools of Nodaway county will be furthered by the access to the most illuminating works on Sunday School problems

The list of books already purchased and now available to Nodaway county readers follows:

Cradle Roll Manual—K. Williams.

Stories and Story Telling—E. P. St. John.

Picture Work—W. H. Hervey.

How to Run a Little Sunday School—E. M. Ferguson.

The Sunday School and the Teens—J. L. Alexander.

The Pupil and the Teacher—L. A. Weigle.

The Church School—W. S. Athearn.

How to Conduct a Sunday School—M. Lawrence.

The Junior Worker and His Work—E. A. Robinson.

The Adult Worker and His Work—W. C. Barclay.

Sunday School Officers' Manual—F. L. Brown.

Elementary Worker and His Work—A. Jacobs and E. C. Lincoln.

The Girl in Her Teens—M. Slattery.

Stories to Tell Children—S. C. Bryant.

Lesson for Teachers and Beginners—F. W. Danielson.

The Boy and the Sunday School—J. L. Alexander.

TO PUT PAPER PRICE DOWN

News Print Manufacturers Now Propose to Fix Price at $2.50 A Hundred.

Special to The Democrat-Forum.

Washington, Mar. 6.—The federal trade commission accepted yesterday a proposal by news print paper manufacturers that it fix a price for their product and named $2.50 a hundred pounds as a reasonable charge. Higher prices were set for paper in less than carload lots and for sheet paper.

Acceptance of the arbitration plans was announced by the commission in a preliminary report to congress in its news print investigation saying there had been no real shortage of paper, but that important manufacturers of the United States and Canada had banded together to secure unreasonable profits.

"The increases in the selling prices of news print paper for the year 1917 in most cases were greater than could be justified by the increases in cost.

"There is not now and has not been a serious shortage of news print. The commission finds there is enough news print paper to meet all the strictly necessary demands of publishers during 1917. There is, however, a close balance between supply and demand, and the commission recommends the strictest economy in the use of news print paper.

WILSON NAMES CABINET

Only Three of Ten Appointed Four Years Ago Are Out of the President's Council.

Special to The Democrat-Forum.

Washington, Mr. 6.—President Wilson renamed his present Cabinet yesterday as follows:

Secretary of State—Robert Lansing.

Secretary of the Treasury—William Gibbs McAdoo of New York.

Secretary of War—Newton D. Baker of Ohio.

Attorney General—Thomas W. Gregory of Texas.

Postmaster General—Albert Sidney Burleson of Texas.

Secretary of the Navy—Josephus Daniels of North Carolina.

Secretary of the Interior—Franklin Knight Lane of California.

Secretary of Agriculture—David Franklin Houston of Missouri.

Secretary of Commerce—William Cox Redfield of New York.

Secretary of Labor—William B. Wilson of Pennsylvania.

Only three of the ten Cabinet officers named four years ago have changed. The first to retire was James McReynolds, Attorney General, who quit when appointed to the Supreme Bench. William Jennings Bryan retired from the Secretaryship of State as a protest against President Wilson's peace note to Germany after the sinking of the Lusitania. Lindley M. Garrison retired as Secretary of War because he did not indorse the President's views on the preparedness situation, holding them inadequate.

FORMER RESIDENT DIES

William S. Garrett, 91 Years Old, Lived Here Before Moving to Kansas City.

William S. Garrett, 91 years old, a former resident of Maryville, died Sunday at his home at Rosendale, near Kansas City. Funeral services were held at Kansas City yesterday.

Mr. Garrett was born in Kentucky and when a small boy, his family moved to Missouri. He served during the Civil war in the Tenth Missouri Cavalry, U. S. A. Upon removing to St. Joseph as a carpenter he helped to build many of the early day houses there. Later he moved to Maryville, where he also worked at his trade. He finally located in Kansas City.

Mr. Garrett is survived by a son, Edward J. Garrett of St. Joseph, a son, Clifford Garrett of Wyoming, and a daughter, Mrs. Katherine Steckle, of Rosalie, Kan.

AUSTRIA REPLIES

WILL SUPPORT GERMANY IN HER SUBMARINE CAMPAIGN.

WILL MAKE CONCESSIONS

Determined to Prevent Break With the United States if Possible — Note Received Here Today.

Special to The Democrat-Forum.

Amsterdam, Mar. 6.—Austria will support Germany in her new submarine war plans, but will make certain concessions designed to prevent a breech in diplomatic relations with us. This interpretation was placed here today on summaries of the Austrian reply to Wilson's note received from Vienna.

The Austrian reply has been handed to the American ambassador at Vienna. It warns Americans and other neutrals to keep off of belligerent ships entering the war zone.

Reply Reaches Washington.

Washington, Mar. 6.—Austria's reply reached the state department today, but no comment was made. It was learned that the note contained certain concessions designed to prevent a break between Austria and this country.

"The Austrian note will not require an immediate reply," said the first assistant secretary of state today.

The Democratic senators in caucus today elected Senator Thomas S. Martin of Virginia to be the majority leader in the senate, succeeding Kern whose term expired. The selection was made only after a strenuous fight between the supporters of Martin and Walsh.

MEETING WAS A SUCCESS

Twenty-Two Neighbors of Mrs. G. H. Colbert Hear Lecture on Improving the Home Grounds.

Interest and enthusiasm ran high at the beautification meeting held last night at the home of Mrs. G. H. Colbert, when twenty-two of the neighbors came in to spend the evening and hear a lecture on how to beautify their grounds.

Prof. C. C. Leeson of the Normal was the speaker of the evening. He discussed the correct and improper ways of planting shrubs and of placing them on the lawns. He showed views of various homes made unsightly by the injudicious use of shrubbery, and then in contrast showed the value of the well-kept lawn as an asset to the appearance of property.

After the lecture, those present held an informal discussion of the methods on gardening. More enthusiasm was manifested in the discussions and many persons expressed their intentions of setting out more shrubs or of doing something else to improve their home grounds. The meeting tonight will be at the home of Mrs. C. T. Bell on West Third street.

MEASLES KILLS BABY.

Son of Mr. and Mrs. Peter Brocheid, Succumbs to Illness.

The 15-months-old baby son of Mr. and Mrs. Peter Broscheid of Clyde died at 3:30 o'clock yesterday afternoon at the home of his parents following a two week's illness of measles. Funeral services were held at 2 o'clock this afternoon at St. Benedict's church, the Rev. Father Frowin officiating. Burial was at the St. Columbia cemetery at Conception.

Lannings Visit Here.

Mrs. J. C. Lanning and son, Merrill, of Hopkins, are visiting at the home of Mr. and Mrs. Verlin Conley. They will go to Barnard tomorrow for a short visit with friends before leaving for their new home in Millarton, N. D.

Mrs. Margaret Sanger Out.

Special to Democrat-Forum.

New York, Mar. 6.—Throngs of cheering men and women greeted Mrs. Margaret Sanger, when she walked out of jail after serving her sentence of thirty days for disseminating birth control information.

W. W. Jones and George McKnight of Burlington Junction were among the out-of-town people in Maryville yesterday.

WORK PROGRESSES

RAPID STRIDES MADE YESTERDAY IN STATE LEGISLATURE.

HOUSE IS PASSING BILLS

Conference Committees in Senate and House Appointed to Consider Hawes Road Amendment.

Special to The Democrat-Forum.

Jefferson City, Mar. 6.—Swinging into the home stretch of the present session, the state legislators are now conducting their business in a fairly rapid manner.

At yesterday's session of the senate rapid strides were made toward clearing away and advancing important measures.

Senator Goodson's bill imposing a tax of one-half a cent per gallon on all soft drinks and five cents a gallon on syrups was passed.

Senator Kinney's measure imposing a tax of two per cent on the face value of trading stamps was advanced by the senate when that body ordered the bill engrossed. An amendment eliminating the stamps that are part of an original package was adopted. The amendment would exempt packages of tobacco.

Conference committees of the senate and house have been appointed to consider the senate amendments to the Hawes Good Road Bill. It is confidently predicted that the committees will concur in the amendments and that the bill will be sent to the governor this week for his approval.

The income tax bill introduced by Senator Duncan, is now under final consideration in the senate.

The house continues to grind out measures. The following measures were passed by the house yesterday:

By Representative Nelson, creating fifteen hay and straw inspectors, at $1,800 a year each, to the warehouse commission office. The measure provides for five inspectors at St. Louis, six at Kansas City, two at St. Joseph and two at Springfield.

By Chancelor, making the storing of liquor in local option territory a misdemeanor. The bill is said to be aimed at liquor store houses along the Missouri-Kansas border.

By Fullbright, fixing an annual tax of $25 for cold storage plants and requiring a public record be kept of storage of all articles of food, showing when they were received at each plant in which they have been stored.

GUILFORD WINS DEBATE

High School Students Have Discussion of Possibilities of Revenue or Protective Tariffs.

Guilford High School was the winner in a debate which was held at the Guilford High School last Friday night with Ravenwood High School. The question was: "Resolved, that a revenue tariff is better for the American people than a protective tariff."

Those attending from Ravenwood were: Prof. and Mrs. Ross, the Rev. and Mrs. Hetzel, Misses Kidder, Gertrude Conn, Leora Deshazer, Marie Oglesby, Helen Tebow, and Eva Loomis; Leslie Powell, Pearl Lawson, Harold Tebow, Rex Bond, Hulbert Lawson, Fred Bradley, Claude Loch, Arthur Gates, Raymond and Freddie Jackson, Dorse Conn, Chester Peterson and Wellington Slagle.

Those debating from Ravenwood were: Miss Helen Tebow, Pearl Lawson, Arthur Gates and Leslie Powell.

UTTER CASE DISMISSED

Eploye Arrested On Charge of Disturbing the Peace — Filed by A. D. Arnett.

John Utter, who has been in the employ of A. D. Arnett, was arrested last night on a charge of disturbing the peace, the complaint being issued by Arnett. Utter pleaded not guilty and the case was called before a jury in the city police court this morning. After several witnesses had been examined the case was dismissed at plaintiff's costs.

The trouble is said to have started about some money that was owed Utter by Arnett.

The jury in the case was composed of John Behm, J. M. Conley, O. W. Swinford, Frank Nichols, Tom McDonald, and Dug Montgomery.

"GLORIANA" PLEASES BIG CROWD

Church Women Delighted With Success of Plan to Raise Money .

The production of "Gloriana" given at the Fern Theatre for the benefit of the Ladies' Aid society of the Christian church was enjoyed by a large audience yesterday afternoon and evening. The picture was especially pleasing to the children, who were out in great numbers to see it. The women of the society were delighted with the success of their efforts in raising money.

PLOT IS UNEARTHED

GERMAN AND HINDU DOCTORS ARE IMPLICATED IN CONSPIRACY.

THEY HAD SEVERAL PLANS

Raised A $60,000 Fund to Further Germany's Cause in the United States.

Special to The Democrat-Forum

New York, March 6.—An insurrection throughout the United States, an expedition to a foreign country, said to be India, and the conversion of the Chinese government to measures said to further Germany's cause were all parts of a plot unearthed here today, according to the police.

It is said that startling disclosures will result from the arrests of Dr. Ernest Sickner, German subject, and Dr. Chanadra Chakaberty, Hindu, both on charges of conspiracy to conduct a military expedition against a foreign nation friendly to the United States. Chakaberty, the police say, confessed that he received $60,000 from Wolf Vonigal, engineer of Welland Canal, also in the plot to carry on the work in this country

APPRECIATION.

I like to see a fellow who is pulling for his town, while the other chaps as critics take a stand, and with their little mallets gaily try to batter down all the good things and the great things he has planned. Yes, he knows that they are knocking and he knows how glad they are if some fool gets up to reel and rock the boat, for they know no greater pleasure than to scuttle and destroy, while it's hard to keep the Ship of State afloat. I should like to stand close by him as he labors at his tasks when his critics crowd around with leering smiles. I should like to face their meanness and to tear away their masks and kick them and their pretenses twenty miles.

You can bet your bottom dollar that the man they try to down is a better man than they can ever boast and the only use the devil, and his angels has for them is to put them in a place where they will roast. When a man will serve his country, and will guide it through the storm then when you see a critic go and get your gun, for the nicest way to handle skunks and things that skunks create is to kill the skunks and likewise kill his fun.

SENATE IS NOW BACK AT WORK

PREPARED FOR BITTER WRANGLE OVER REVISION OF RULES.

WILSON DETERMINES TO "FIND WAY OUT"

Meets With Cabinet This Afternoon to Look Over Statutes Relating to Arming Merchantmen.

(BULLETIN).

Washington, Mar. 6.—Senator Lodge this afternoon reintroduced into the Senate a bill fixing the President's authority to arm merchantmen and to use other instrumentalities and methods to protect American lives and property on high seas.

Special to The Democrat-Forum.

Washington, Mar. 6.—The Senate went back to work today prepared for a long and bitter wrangle over the revision of the rules suggested by the President to abolish filibustering, and to clear the way for prompt action on the "armed neutrality" bill which failed with the expiration of the sixty-fourth congress Sunday.

The Senate has enough debate-producing material to keep it in session for at least a month, and perhaps three months, in the opinion of the leaders. When it has revised the rules it is expected that the President will call both houses in extraordinary session and ask them again for power denied him in dealing with the German submarine warfare situation.

Cabinet in Session Now.

Washington, Mar. 6.—Determined if possible "to find a way out," and to establish armed neutrality as outlined by the president in his final answer to congress and in his inaugural address, the cabinet met with Wilson this afternoon. It had before it the reports of Attorney-General Gregory and Secretary Lansing, dealing with the right of the president to arm all merchantmen.

It is believed in official circles that the power of the President will be upheld. Statements were promised "shortly" after the cabinet went into session, and if it turns out to be as is expected, the official arming of vessels will begin at once.

SOYBEAN BEST FOR FORAGE

Exceeds Any of Legumes in Seed Production—Rich in Protein and Highly Digestible.

The soybean is one of the best forage plants among the legumes and it exceeds any of the legumes in the production of seed, although it is now grown largely for its abundant yield of rich forage. The high value of its seed offers the most promising possibility for the future use of the soybean as a seed crop according to W. C. Etheridge of the Missouri College of Agriculture.

Soybean seed are the richest in crude protein of any seed used for feeding, are extremely high in fat and are highly digestible. Feeding experiments have shown soybean seed meal to be slightly superior to cottonseed meal for dairy cows and only slightly inferior to cottonseed meal for fattening cattle. Soybeans are also an excellent feed for horses, sheep, and pigs. It must be understood, however, that soybean meal is a highly concentrated nitrogenous feed and such must be fed sparingly—in about the same ratio to other feeds as cottonseed meal is fed.

OUR ARMY FORCES

Defense Council Figures We Can Raise 4,778,050.

ARE FIT FOR MILITARY DUTY.

Still Greater Number Might Be Put Under Arms In Emergency by Recruiting Older Men, Lowering of Physical Standards and Placing Women In Men's Jobs.

New York.—An army of 4,778,050 of men between eighteen and forty-five years old fit for military service is available in this country, according to the estimate of an investigating staff of the executive committee of the mayor's committee on national defense. A still greater number might be put under arms in a serious emergency, according to the committee's report, by the recruiting of older men, by the lowering of physical standards and by the employment of women in occupations now open only to men.

The task of estimating the total resources of the nation in men available for military service between the ages of eighteen and forty-five, inclusive, is complex. For into this calculation there enter many uncertain factors. In addition to the morbidity rate and the physical rejection rate there is to be considered the dependency of families and the need of men of mature years in the business and industry of the country.

In 1910 the males from eighteen to forty-five years old in the United States numbered 21,071,076. Although approximately 1,800,000 were aliens and therefore ineligible for military service, the officials of the census bureau consider that the increase in population between 1910 and the summer of 1916 has about compensated for these.

Through a deduction of 2½ per cent for morbidity, the total of 21,071,076 becomes 20,544,300, and through a deduction of about 12½ per cent for physical defects there is a further reduction to 18,007,080.

The census tables showing the number of men in various occupations—farmers, factory workers, miners, physicians, lawyers, railroad employees, clerks, public officials and so on—have been carefully examined, and the effort has been made to reach an approximate estimate of the number that could be spared for military duty in a serious emergency. This leads to the estimate that 17,606,000 out of the 30,091,564 employed, or 58.5 per cent, could be brought into service if needed. And this percentage applied to the 18,007,080 physically fit between eighteen and forty-five years old gives 10,535,940.

Still unconsidered, however, is marital condition or dependency. Though unmarried men have dependents, there are married men who are in such circumstances that they can do military service without imposing hardship upon their families. How nearly the latter come to offsetting the former cannot be stated even approximately. In this calculation all the single, widowed, and divorced men are assumed to be available and all the married men unavailable.

Of the 21,071,076 men from eighteen to forty-five years old 45.35 per cent are single, widowed or divorced (43.35 per cent being single). If this percentage be applied to the 10,535,940—the figure arrived at after deductions for sickness, physical defects and industrial necessities—the number available for service becomes 4,778,050, or 22.7 per cent of the entire number of males from eighteen to forty-five. This is about one out of five.

In the attempts to estimate a nation's human military resources it has been borne in mind that the result depends upon highly elastic factors. Upon the seriousness of the emergency which faces a nation must depend in a great degree the proportion of exemptions from military duty.

The executive committee is composed of Willard Straight, chairman; Cleveland H. Dodge, William D. Dykman, Major Francis G. Landon, John Mitchell, George W. Perkins, ex-Secretary of War Henry L. Stimson, Alfred E. Smith and Alexander M. White.

WANTS CHAIR PAINTED RED.

Socialist Assemblyman Asks It; Also Suggests Ear Trumpets.

Albany, N. Y.—Socialist Assemblyman J. I. Whitehorn of Brooklyn has suggested to the clerk of the assembly that seat No. 149, which he occupies, "be painted red."

"When I drew the seat at the beginning of the session," he explained, "I was told it was occupied by Socialist Assemblyman Shiplacoff of Brooklyn last year. So I said why not paint it red and reserve it for any Socialist who may be elected to the assembly in the future."

Whitehorn, who complains that he cannot get favorable action on a resolution instructing the Public Buildings Commission to improve the acoustics of the assembly chamber, now suggests that each assemblyman be supplied with an ear trumpet at state expense.

Goose's Crop Held $10.27.

St. Louis.—When John E. P. Ernst killed a gift goose he found in its crop a half dollar, twenty-six quarters, twenty-six dimes, thirteen nickels and two pennies. This two legged bank was a Christmas bonus given Ernst by the employees of a grocery store where he is chief clerk. There was no refund, as Ernst considers the gift of a goose includes the ballast. The total of the goose's savings was $10.27.

The New GOSSARD CORSETS *for Spring*

WHILE retaining all those qualities that have characterized and famed Gossard corsets in past seasons, they strike a new note in corsetry—a subtle change that is reflected in a more delicately beautiful outline and in an even more graceful flat back. Youth is the keynote in the style of these new Gossard models.

Without any undue pressure you are assured absolute comfort and freedom of movement because the Gossard secret of scientific boning assures the most perfect support where it is needed; proper breathing is induced and the whole body thrown into the healthful poise advocated by your physician.

This is the
Thirty-second Announcement and Proclamation of Gossard Corset Styles for Spring and Summer, 1917

The new models vary in height of bust and length of skirt—as they should—to meet the individual requirements of the various figure types, but the general tendency is toward less corset, lower bust and shorter skirts with a smaller waistline indicated by skillful designing rather than actually expressed.

Be fitted today to one of the many models designed for your figure type at $2.00, $2.50, $3.50, $4.25, $5.00 and up. An expert corsetiere who *understands* your corset problems will deem it a pleasure to fit you without obligation.

GERMS.

There are thought germs as well as disease germs, which are constantly at work breeding disorders in the public mind and spreading contamination in their wake.

Just as a normal sound man is optimistic without any effort on his part just so is a community spirit fostered and kept healthy by its broad public spirited citizens, naturally progressive and co-operative.

But there are always forces at work in nature, tearing down and breaking down, sowing mental hallucinations, creatures of diseased unnatural minds, which germs find a breeding place in people of low mental resistance, just as do disease germs in people of low bodily vitality.

These people are "disease carriers" and spread as dangerous germs as far as community welfare is concerned, as typhus or any other pest.

Don't blindly grasp the half truths of the demagogue. Prove your own theorems and draw your own conclusions, for by so doing you show that you are inoculated with bacilli of "good citizenship" and possesses a healthy brain.

Every community disease has a cure. Look for it. Be a community doctor rather than an undertaker. It pays.

How to cure community ills will be discussed at the annual convention of the Federation of Missouri Commercial Clubs in St. Louis on March 27 and 28, at the Planters Hotel. It will pay the progressive citizens of this community to attend that convention.

They want to wear a smile back home,
They want to laugh—that's why they come.

Go to the FERN and get a smile that won't come off—a dose a day is sufficient and guaranteed.

A HOUSE VS. A HOME

Contrast Between Dwelling With and Without Shrubs Is A Painful One.

(A House vs. A Home).

The contrast between a bare walled house set on an ill-kept lawn and one around which are shrubbery, trees, flowers, and an open green is a picture one can easily imagine because it is often seen.

The one gets the burning summer sun with no relief of shade and the bleak winter cold that the open exposure makes the more forbidding; the other gives relief to the sun glare and a canopy against its heat, and if it be but a low shrub planting it makes the cold seem less intense.

The one offers no changing welcome as the seasons pass; the other has one round of glad surprise in flower, foliage, leaf color, winter berries, and snow crowned forms.

The one offers no enticement to an out-door recreation; the other offers restful shade or healthful occupation or exhilerating joy in the variety of garden activities.

The one leaves the house set artificially on a plot of ground; the other blends the home into a natural setting and softens the hard outlines.

The one makes of the backyard a litter of garbage; the other a place of beauty and an economy against the high cost of living.

The one makes poverty in house possession show up in all its ugliness; the other will transform a hovel "be it ever so humble," into a thing of beauty.

The one is "but a house beside the road;" the other, a friend to man.

AN EXTRA SESSION

LEADERS THINK IT WILL BE NECESSARY BY JULY 1.

FILIBUSTER IS THE CAUSE

Failure of Big Appropriation Bills Threatens to Halt Important Activities.

Special to The Democrat-Forum.

Washington, Mar. 6.—The failure of appropriation bills designed to supply $500,000,000 for imperative government expenditures during the next fiscal year because of Senate filibuster which ended the Sixty-fourth congress, will make an extraordinary session of congress before July 1 absolutely necessary. Four great supply measures died awaiting action in the senate. Unless they are enacted before July 1, great government activities will be halted, the army organization disrupted and the civil machinery of the government thrown into chaos.

The big supply bills which failed in the Sixty-fourth were:

The army appropriation bill, carrying $277,000,000 which the administration had declared absolutely essential to preparedness in the present crisis; the sundry civil bill with its $138,000,000 in salaries and the expenses for the various departments; the general deficiency bill, carrying $68,000,000, about half of it designed to meet immediate military necessity and the military academy bill appropriating $1,500,000 for the West Point school.

Unless the President calls an extraordinary session, there is no way to supply these funds. The congress itself cannot get together until next December, when it convenes under constitutional mandate. Without an extra session all of these activities will be halted from July until December.

The only question in the minds of congressional leaders today was the probable date of an extra session, and it was believed that unless the German crisis takes a graver turn the new Congress would be convened just in time to get the supply measures through by July 1.

In the closing hours of the congress yesterday, a grist of legislation was turned out and signed by the President in his room at the Capitol. Among the measures approved were:

The naval appropriation bill and a joint resolution authorizing a bond issue of $150,000,000 for speeding up naval construction; a joint resolution extending the effective date of the so-called "bone-dry" provision in the postoffice bill to July 1, rather than allow it to become operative at once; a bill appropriating $3,000,000 for work on the government railroad in Alaska, to replace a provision that died in the sundry civil bill; the agricultural appropriation bill and a bill establishing a temporary form of government for the Danish West Indies.

Dr. and Mrs. Jesse Wallace left yesterday for their home in Clinton, Mo., after a visit with relatives.

POLICE DOGS HELP IN WAR ON CRIME

Sagacious Animals Go With Bluecoats on Patrol In Outlying Sections.

New York.—New York's police dogs are having a large part in cleaning up crime in the Flatbush section of Brooklyn and in making it a place where women may walk the streets safely late at night without fear of annoyance. The vigilance and activity of the dogs have done much to rid this cozy settlement of detached houses of tramps, idlers and criminals. The dogs have also done much in Riverdale, where several were dispatched after a series of burglaries.

The police department is devoting considerable time to the serious training of these dogs with a view to finding out to what extent they may be used in certain lines of police work. Kennels for the accommodation of twenty-four dogs have been built at Foster avenue and Ocean parkway, two blocks from the Parkville police station, and a good sized dogs' hospital has been constructed, in which the animals when ill may be isolated and receive veterinary treatment.

There are twelve full grown Belgian and German shepherd dogs in the department, and to these may be added a litter of nine German shepherd puppies, which arrived at the kennels recently. The dogs are in charge of Sergeant Joseph Hickey, who has thirteen patrolmen to assist him in their handling. A dog is assigned to each patrolman. Every night the police go out to patrol with the animals. The dogs wear large leather muzzles, so that they may not bite any one, for they are powerful enough to tear a man limb from limb.

GETS HALF MILLION FOR HIS OIL PRODUCING FARM

Texan at Goose Creek Waited Patiently Until Things at Last Came His Way.

Houston, Tex.—John Gaillard sold his farm at Goose Creek, Tex., recently for $500,000. There were 267.7 acres, and he reserved one-half acre, the ancient burial ground of the Gaillard family. The Gulf Production company was the purchaser. It owned oil leases on most of the farm from which Gaillard had been drawing a one-eighth royalty since the Goose Creek oil field was opened several years ago. Last August gusher oil was discovered on the Gaillard place, and since then the proprietor, known as the "silent magnate of Goose Creek," has drawn a half million in royalties. It was to avoid the payment of these royalties that the oil company bought the farm outright.

John Gaillard is a man who speaks only when necessary. He was born on the place forty-eight years ago. His father took up the land in the early days of Texas. With wealth at his command, John Gaillard does not keep a telephone in the house. His wife likes the simple life as well as the husband.

Since 1907, when the first boring for oil at Goose Creek was begun, John Gaillard has silently watched the development—and held on to his land. Hundreds of thousands of barrels have gushed from the earth at Goose Creek since last August, and from every barrel the Gaillard family drew its royalty.

If John Gaillard knows what to do with his money he is not telling any one. As one of his neighbors remarked, "John doesn't need a gyar-deen."

WOLF ATTACKS LITTLE GIRL.

Half Starved Animal Is Then Slain by Farmers Near Penn Yan.

Rochester, N. Y.—A gray timber wolf weighing about eighty pounds and apparently almost starved, was killed in a small patch of woods near Penn Yan, not far from this city.

Lucy Ballard, the twelve-year-old daughter of a farmer at Benton Center, near Penn Yan, was on her way to church when the wolf leaped out at her at a lonely point in the road. She screamed and struck at it with her handbag and fled down the road. Her cries were heard by Adam Babcock, a farmer living near by, and when he appeared the wolf took to the fields and made its way to the patch of woodland.

The alarm was given and a number of farmers armed with rifles and shotguns, surrounding the wood, succeeded in beating up the wolf and killing it.

SUES FOR 50 CENTS.

Colonel Baylor Names Three Railroad Companies as Defendants.

Atlanta, Ga.—Colonel Henry Bedinger Baylor, Virginian by birth, Georgian by adoption and lord of San Souci castle, Bedford place, Atlanta, filed suit for 50 cents in the city court recently.

Colonel Baylor is the man who offered his sword to France some time ago and got a letter from President Poincare's secretary thanking him. His suit for 50 cents names as defendants the Georgia railroad, the Atlantic Coast Line Railway company and the Tidewater Power company.

Colonel Baylor charges that the half dollar is due him for excess charges on baggage checked from Atlanta to Wrightsville Beach, N. C., July 17, 1916.

New Rugs

WE have received our sping shipment of Rugs and now have on display a very extensive assortment of various weaves and colorings in the very newest patterns. We contracted for our spring rugs early last fall and, with very few exception, are able to supply you with rugs at the same prices as last season.

There are certain fundamental rules that are followed by good furnishers of homes. First, to select a fabric that will give wear proportionate to its cost; second, to select a weave that can be cared for with the least expenditure of time and strength; and third, to select colors that are permanent—or as nearly permanent as good dyes can render them—and that harmonize with other furnishings of the room.

Our stock of rugs was bought to meet just these requirements and our arrangements with the manufacturers to quickly supply us with special rugs for special needs puts our service on the same plane with the large city stores.

We make a specialty of carrying as regular stock odd sized rugs and can fit most any room from our present stock of rugs.

Kansas City Stock Letter.

Kansas City Stock Yards, Mar. 6.—Cattle finished last week firm with a net gain of 10 to 20 cents, and the 12,000 head that arrived today sold strong to 10c higher, top $11.25. Hogs made new flights today, 25c to 40c higher than Friday, most gain on lights, top $14.65, receipts 9,000. Sheep and lambs sold 15c to 25c higher, heavy lambs 40c higher, top $14.60, receipts 6,500.

Beef Cattle.

No strictly prime cattle were included, but the right kind would bring $12, which price was offered by a packer for two loads of prime Nebraskas, whose owner is about ready to ship. Middle class to good steers bring $10.00 to $11.25, light weight steers $9.00 to $10.00. About 75 cars of pulp fed steers arrived and sold quickly at stronger prices, most of them at $10.50 to $10,75, some at $10.90 to $11.25, a few down to $10.20, pulp fed bulls $8.25, pulp fed cows $8.75. Butcher cattle continue firm, choice heavy cows last week up to $10.00, bulk of cows $6.50 to $8.75, heifers $8.00 to $10.75, veal calves off 50 cents today, best around $11.75.

Stockers and Feeders.

Receipts of this class have been short of the demand, and the market is strong and active, some sales today 10c to 15c higher, fleshy feeders $10.00 to $10.50, thin feeders $8.50 to $9.75, stock steers $7.50 to $9.00, stock cows and heifers $6.00 to $8.00. A good many cattle in this division get bids from packers, which has a stimulating effect on prospective feeders, showing that they can turn the cattle at any time.

Hogs.

Early bids 15c higher were promptly refused, and the market soon assumed a plane 25c higher, some of the light hogs going 40c higher before the finish, bulk of sales narrowest of the winter, at $13.80 to $14.00, top $14.05, that price paid late for a drove of 240lb hogs, quite a string bringing $14.00 Shrinking visible supply, and belief in a short invisible supply, with no falling off in the demand, leaves the situation wholly in the hands of sellers. A good many choice hogs are coming from Northern Kansas and from Nebraska, but offerings from most other sections run lighter in weight. Pigs sold at $10.50 to $12.50 today.

Sheep and Lambs.

After a listless trade last week, with prices barely steady, the market took on new life today and sales were 15c to 25c higher on medium and light lambs, and 40c higher on heavy lambs some weighing 86 pounds bringing $14.35. Top of $14.60 was paid for a four car drove of Arkansas Valley lambs weighing 73 pounds. No choice ewes were here, top paid $11.50, prime ones worth $12.00. Feeding lambs sell at $13.50 to $14.00. Receipts were 6,500 today, and have been running light for ten days.

PERILS OF THE AIR

Lost Army Flyers Found South of Mexican Border.

FOUR DAYS WITHOUT FOOD.

Two Sandwiches and Two Oranges All They Had In Ten Days—Propeller of Airplane Broken When They Made Landing—Got Water From Radiator of Craft.

Wellton, Ariz.—Exhausted and half famished from wandering four days without food or water, Lieutenant Colonel Harry G. Bishop and Lieutenant W. A. Robertson, the lost army aviators, were found thirty-two miles south of the Mexican border by civilian searchers. They were brought back here.

Since the two men left the aviation base at San Diego ten days before on their flight two sandwiches and two oranges were all the food they had. The only water was from the radiator of their airplane.

Robertson was found following the tracks of the searchers' auto. He directed the members of the party to Bishop, who had become too exhausted to go on when they reached the Rosario mountains, thirty miles farther south. Bishop was found lying on the ground in a mountain pass, unable to talk. Robertson didn't know exactly where they landed, but thought it about 250 miles south of the Arizona border. The searchers were the first persons they had seen since landing.

The propeller of their airplane was broken, Robertson said, when they made a landing. Enough gasoline for thirty minutes' flight remained in the tank. Lieutenant Robertson said:

"We left San Diego intending to go across the mountains east to Calexico. Insufficient maps made it necessary to rely largely on compass readings. We figured on a course to reach the Imperial valley about fifty miles above Calexico and far above the Mexican border.

"In order to cross the high mountains it was necessary to travel high, averaging more than 7,000 feet. From this altitude it was impossible to detect a very strong north wind which I encountered in the mountains.

"We kept a northwest course, traveling by night and day. Our water gave out after four days. By that time Colonel Bishop was so weak our progress was slow. We agreed it would be wise to separate when he could travel no farther, I to continue on and send back aid if possible."

GIRL SHOWS HER PLUCK.

Handicapped by Coat, She Saves Twe From Drowning.

Sheboygan, Wis. — Virginia Fessler, aged fifteen, daughter of Bernard Fessler of Sheboygan, was unable to unfasten her heavy coat and cape in her anxiety when her brother Jacob, aged six, and Cecilia Melger, seven, broke through the ice in the Sheboygan river above the cofferdam at Sheboygan falls, so she broke through the thin ice and swam in her heavy clothes to the middle of the river and rescued her brother as he sank for the third time, came back to shore, then returned and saved Cecilia.

The children were throwing sticks on the ice for a pet dog to bring back. One went to the open channel, and the dog fell into eight feet of water. The children went out to rescue the dog and broke through. Virginia learned to swim last summer. She wore gloves and could not unfasten her cloak as she ran out on the ice, but broke through, and with her fist broke a channel to rescue her brother and his companion.

REMEMBERS LOW PRICES.

Man Would Not Sell His Eggs For 3 Cents a Dozen.

Macon, Mo.—"People who complain of paying 5 cents apiece for eggs think they are in hard luck," remarked J. H. Wright, one of the county's pioneers, "but I can tell you we thought times were a good deal worse in the fifties, when eggs were selling at 3 cents a dozen," he said. "I remember one day of taking a basket of the nicest eggs ever laid to old Bloomington and offering them to the merchant there. When he told me he could get all the eggs he wanted for 3 cents a dozen and wouldn't pay any more I took mine back home.

"Those were what you call real hard times, as far as money was concerned. People raised lots more stuff on the farm, but couldn't get anything for it because there was no way to get it to market."

GIRLS PROVE BEST SPELLERS

Winners Get Silver Medals In State Wide Contest.

Albany.—Schoolgirls are better spellers than boys, the results of the state wide spelling bee conducted by the state education and agricultural departments indicate. Of the winners of these contests in up state counties more than 70 per cent are girls.

The contests were held simultaneously in 10,500 schools and the results checked up in the presence of official referees. The winners were to be rewarded with a trip to the state fair last September, but the prevalence of infantile paralysis deprived them of that pleasure. Instead Dr. John H. Finley and Charles S. Wilson sent each winner a certificate of proficiency and a silver medal bearing the seal of the state of New York.

NEWS FROM ALL NORTHWEST MISSOURI

An entire neighborhood near Grant City spent several hours one day recently, searching for the little two-year-old daughter of Mr. and Mrs. Art Maylon, only to find the child sound asleep in the grass, three-fourths of a mile from the farmhouse.

All of his own raising, 80 hogs, averaging 203 pounds each and selling at $12.10 a hundred pounds, brought J. P. Motsinger, of Grant City, the sum of $1,969.88, says the Worth County Times.

The highest price received the other day for a single span of mules at Ed F. Rankin's mule sale, near Tarkio, was $637.50; the next span, $610. The average price a mule was $214, and the total sales amounted to $23,917.

A drainage district, comprising 23,000 acres, has been organized in Mercer and Harrison counties, and the surveys are virtually complete for the shortening of a 50-mile stretch of the Grand River through these counties. The new channel will be 29 miles shorter than the old, says the Princeton Post, and will have a fall of four feet to the mile.

The champion brood sow is claimed by Missouri City. Wm. Carter has a sow from which a single litter of pigs recently sold for $188, after reserving two for the family pork barrel.

The capital stock of the Andrew County Fair Association is to be increased from $20,000 to $25,000, fully paid, and complete equipment is to be provided for the new fair grounds occupying 20 acres at the northeast edge of Savannah. The first annual exhibition will begin September 3.

Unique commemoration of Lincoln's birthday at the Savannah high school consisted of an address by a local veteran, Dr. W. M. Kerr, who told of the fateful night at Ford's Theatre, when President Lincoln was shot. Dr. Kerr, having just been mustered out of the army, was planning to return home the next morning, and in order to pass the time went to Ford's Theatre, to hear Charlotte Cushman in "Our American Cousin." The stirring scenes of that night are still fresh in his memory and his simple narrative as an eye witness, made an impressive memorial ceremony.

North Missouri may soon have electric roads, according to a rumor published in the Unionville Republican. The Illinois Traction Company The The Illinois Traction Company. (The North Missouri Light and Power Company, organized two years ago to furnish power from the Keukuk dam to several North Missouri towns. The charter is broad and will vest the new owners with power to develop various industries on a large scale.

Geologists, who have been investigating for several months, say Higginsville and the land adjoining is underlaid with enough rock asphalt to pave a million miles of streets. They say it not only can be used for paving purposes but can also be made into a superior grade of roof paint, and is rich in analine dyes.

Some weeks ago the executive committee of the Liberty Community Club asked for suggestions as to what the club should try to accomplish. From the suggestions then offered, one has grown in favor until the club is now virtually unanimous in asking that it be put into effect, and that is the building of a community hospital. It is likely that some definite step will be taken soon toward this worthy ideal.

Sugar Lake, near Dearborn, was so thickly covered with wild ducks, February 25, that Editor Ives, of the Democrat, states point blank that there were 15,000,000 of them, or 1,000 acres of them, whichever sounds the best. And nobody allowed to shoot.

When Uncle John Calvin Bales went into the voting place at Richmond to cast his ballot, last election day, who should he meet but Andy Wells, and at once the memory came over these two od men that they had met exactly the same way at an election in Richmond just sixty years before. The Richmond Missourian wonders if such a thing happened anywhere else in the United States

By an overwhelming majority Plattsburg has succeeded in carrying the bond issue for a new high school building with a five-acre campus.

A motto that it is possible to live up to has been devised by a Ray County man, Dr. J. P. Gill, and is quoted in the Richmond Missourian as follows: "Do what you can, be what you are; shine like a glow worm if you can't like a star. Work like a pulley, if you can't be a crane; be a wheel-greaser, if you can't drive the train."

With the recent winning of a $1,250 car offered by the Mail and Breeze, of Topeka, Kans.,Charles Hopkins, of Albany, gains the remarkable record of having won six motor cars in subscription contests.

To John Weller of Maitland belongs the distinction of shipping the record heavy-weight porker to St. Joseph. His contribution to hog market history was in the shape of a 980-pounder, which brought $103.50 on the open market.

Twenty-eight extra fine horses left Princeton one day last week, in a special car in charge of the American Express Company. They were billed to Germantown, Pa, and the Post says their transportation charge will exceed $400.00

Tarkio's May Music Festival is assured by the recent subscription of a $600 guarantee by local boosters. The date of the festival will be near May 15.

The ninth arrest made in the enforcement of Tarkio's new traffic ordinance fell to the lot of the city marshal while engaged in driving the city street-sweeper.

Owners of land near Fairfax met last week and informally endorsed the proposition of submitting to a vote a $100,000 bond issue for the construction of a system of laterals to supplement their present drainage canal.

King City's Improvement Association has reorganized and set about plans for the annual Corn, Poultry and Dairy Show, which is to be held without fail this year in December.

N. Grimsley sold 14 Plymouth Rock hens to the local produce men, this week, for the tidy sum of $20.84, or about $1.50 each.—Burlington Junction Post.

Northwest Missouri is honored by the recent richly deserved appointment of D. Ward King as a director of the St. Louis Federal Farm Loan Bank.

At a farm sale near Cameron, 100 bushels of snapped corn sold at $1.14 a bushel.

Smithville is to vote on a $17,500 bond issue for the erection of a new high school building.

To those in Northwest Missouri who occasionally send to Kansas City for merchandise it may be of particular interest to learn that Kansas City persons who happened to be in Lathrop the other day, bought an order of $30 worth of shoes and groceries at a Lathrop store to be shipped to their home in Kansas City.

After two years of disuse there is a chance that the Bethany canning factory will be put in operation again this season.
